PROFESSIONAL SUMMARY

Full Stack Software Developer with hands-on experience in defense systems, solar industry web applications, and large-scale Vue.js modernization. Adept at delivering end-to-end features across the entire stack, from Vue 3 frontends and Spring Boot APIs to PostgreSQL databases. Known for leveraging AI tools strategically, including GitHub Copilot and Claude, to accelerate development and raise team productivity. Thrives in collaborative, fast-paced environments tackling complex technical challenges.

EXPERIENCE

Software Developer | Red Oak Development March 2025 – May 2026

Remote · Formerly 7 Oaks Group

- ▶ Contracted to Blue Raven Solar for ~9 months, building and maintaining a comprehensive web application managing solar projects, contacts, scheduling, and law & regulatory data.
- ▶ Solely architected and implemented a full API integration between Blue Raven Solar's platform and the Solargraf plotting and planning application, enabling seamless cross-system data flow.
- ▶ Contributed to a complete Vue 2 → Vue 3 migration of the entire web application, including transitioning from Vuetify to shadcn-vue and Vuex to Pinia, updating components and packages to align with current web standards as Vue 2 reached end-of-life.
- ▶ Developed full stack features using TypeScript, JavaScript, Vue.js (SFC), Tailwind CSS, SCSS on the frontend and Java (Spring Boot) on the backend, with PostgreSQL including Flyway migrations and stored procedures.
- ▶ Managed and ran containerized databases using Docker across local and development environments.
- ▶ Actively utilized GitHub Copilot and Claude AI to enhance development workflows, and contributed to AI context/reference files used to guide AI tooling across the project.
- ▶ Collaborated with a small agile team to define, develop, and deliver application requirements and features.

Software Developer | SimVentions – Electronic Warfare & Combat Systems May 2023 – March 2025

Fredericksburg, VA

- ▶ Utilized controlled unclassified information (CUI) and Secret-classified data to develop combat capabilities within large-scale defense systems and databases, maintaining full compliance with security protocols.
- ▶ Collaborated within a high-functioning team to integrate software into pre-existing systems, ensuring seamless interoperability with existing technologies.
- ▶ Successfully delivered Navy Training software, conducting thorough testing and validation to ensure accuracy and effectiveness for ship operations training.
- ▶ Liaised with contractors and stakeholders to ensure alignment with project deadlines and requirements.
- ▶ Traveled to Navy bases to install hardware and software, providing on-site support and troubleshooting for successful implementation.

Software Developer Intern | SimVentions – Electronic Warfare & Combat Systems May 2022 – Aug 2022

Fredericksburg, VA

- ▶ Demonstrated rapid proficiency in new coding languages, enhancing efficiency and functionality within Microsoft 365 applications including Visio.
- ▶ Generated comprehensive reports and presentations to communicate findings and recommendations, facilitating informed decision-making.

Information Technology Consultant | Montgomery Public Schools Sep 2015 – May 2019

Montgomery, AL

- ▶ Installed, configured, and maintained computer hardware, software, networks, printers, and scanners across school facilities.
- ▶ Provided proactive support to teachers and administrators, minimizing downtime and resolving service issues promptly.

EDUCATION

Bachelor of Software Engineering

Apr 2020 – Apr 2023

Brigham Young University – Idaho · Rexburg, ID

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript, Vue 3 (SFC), HTML, CSS, Tailwind CSS, SCSS

Backend: Java (Spring Boot)

Database: PostgreSQL, SQL (stored procedures/functions), Flyway migrations

DevOps: Docker, Git, Bash, Linux, Windows

AI Tools: GitHub Copilot, Claude AI · Contributing to AI context/reference files for project guidance

Other: Python, Kivy, C++, Kotlin, VBA, PHP, Networking, SQL

Languages: English (Native), Spanish (Proficient)
